

ANSWER TO SAMWU APPEAL

Hi Comrades

On behalf of the Social Movements Indaba (SMI) national Secretariat the SMI fully supports the demands and the struggles by municipal workers. We are behind your demands and your struggle is our struggle. The SMI strongly condemns the actions and the decisions of SALGA against the wishes of the union and its valid demands. Having said that, as the platform of social movements we would like to work closer to each other with the trade union activists so that we are able to wage solidarity actions to each other's struggles. This will need more engagement between our regional structures. For example in the Western Cape where I'm based we used to work closely together with SAMWU against the installation of pre-paid water meter or water management devices. We need to revive such links so that we wage joint actions for us to have stronger voice on our demands.

Long Live SAMWU Long Live

Amandla

Revolutionary Greetings

Mzi
